# CORE INDICATORS AND INSTITUTION SET STANDARDS

This document presents the College's values, goals, and objectives and corresponding core indicators. For each core indicator, OCC has established institution-set standards consisting of strategic multi-year performance goals and a "floor" that represents 80% of the indicator's three-year average (unless otherwise indicated). The floor is monitored as a base level of performance. The institution-set standards were developed through collaborative dialogue in College Council. They are reviewed, discussed, and updated annually in relevant participatory governance councils.

The Coast Community College District's Strategic Plan guides the Orange Coast College's master planning process and subsequent Educational Master Plan (EMP). Through open forums and discussion, the College's values, and goals (CA-SS) were modified to reflect an emphasis on Student and Employee Engagement. Strategic objectives organically emerged from a series of retreats and open campus forums attended by students, faculty, staff, and managers. The campus analyzed emerging trends, planning assumptions and program review data which served as a foundation for a common ground approach analyzing strengths, weaknesses, opportunities, threats, and future visioning.

Goals are further delineated by strategic objectives, which provide specifics on how goals are operationalized. Core indicators supporting the goals and strategic objectives are defined with performance targets to gauge the extent to which the College is making progress. The core indicators are organized by the College's values and goals (CA-SS).

## Key Takeaways on Recent Performance:

OCC performed above the floor on 18 out of 21 indicators.

On 11 of the 20 indicators, the College is not yet meeting the 2025 performance goals.

6 of the indicators are exceeding the 2025 performance goal.
